

# AvinoCort™

## OLIGOPEPTIDE COMPLEX

**AvinoCort** is a food supplement pharmaceutically standardized source of peptide/amino acid growth factors in endogenous form. These peptides are not available in modern diets. Growth factors are made of clusters of low-molecular weight peptides, which are quickly and easily assimilated and transported into the body to their specific receptor sites.

AvinoCort is concentrated in the amount of growth factors it contains. This is why only 100 mg are required per capsule to have tremendous effect. Some of the growth factors contained in AvinoCort are IGF-1, IGF-2, FGF (fibroblast growth factors), NGF (nerve growth factors including BDNF), EGF (epidermal growth factors), CTGF (connective tissue growth factors), Thymosin Domain and Follistatin peptides.

### BENEFITS\*

*Ingredients in AvinoCort have been shown to:*

- Balance Thyroid-Adrenal-Pituitary function
- Help restore serotonin levels
- Regulate blood sugar and insulin levels
- Improve mood and reduce fear based stress
- Improve sleep quality
- Effectively modulate cortisol and DHEA
- Increase endurance and lower fatigue
- Improves (ATP) energy production
- Improves blood lipid profiles
- Increase lean muscle mass
- Reduce estradiol
- Raise testosterone
- Reduce pain from inflammation
- Help protect cells from advanced aging factors

### SUPPLEMENT FACTS

Serving Size: 1 capsule	Serving Per Container: 60	
	Amount Per Serving	% Daily Value
Oligopeptide complex	100 mg	**
<b>Other ingredients:</b> Gelatin capsule, Microcrystalline Cellulose, Powdered Cellulose, Silicon Dioxide and Magnesium Stearate.		
** Daily Value (DV) not established.
